In July 2019, NIRSA's Health & Wellbeing Task Force conducted a survey of NIRSA members.

This survey sought to identify a baseline of members' understanding and work in wellbeing, better understand the landscape of wellbeing on US and Canadian campuses, better understand members' needs, and inform the future work of the Task Force. Over 600 individuals participated in the survey; some of the resulting data is highlighted below. A discussion of the full results will be presented in an Executive Summary, authored by the Task Force and distributed through the NIRSA Know.

**Wellbeing as a priority within NIRSA, in the institution, and in the campus recreation department**

- **NIRSA’s role with wellbeing**
  - **What do you see as NIRSA’s role in the health and wellbeing space?**
    - #1: Provide information and resources
    - #2: Communicate collective work in the field, share research and other work in the field, provide education sessions at conference
    - #3: Share health and wellbeing associations work
    - #4: Professional participation in health and wellbeing associations, staff training opportunities
    - #5: Share information on related conferences

- **Challenges toward advancing wellbeing**
  - My campus recreation department has sufficient resources (people, training, support) to advance the health and wellbeing of our campus community.
  - My campus recreation department can clearly articulate why the campus recreation profession is essential in advancing health and wellbeing.
  - There is sufficient training available to meet my department’s needs regarding its knowledge and understanding of wellbeing.

- **What barriers does your recreation department face in leading wellbeing initiatives?**
  - Insufficient staffing (50%)
  - Campus politics (48%)
  - Funding (48%)
  - Other areas have stronger role (23%)
  - Lack of knowledge/training (20%)
  - Not an expectation/priority (19%)
  - n/a. My dept leads wellbeing initiatives (11%)
  - Other

**Student Wellbeing Concerns**

- **What are the top three wellbeing concerns for students on your campus?**
  - Psychological wellbeing (mental health, anxiety, depression, social isolation, etc.)
  - Physical wellbeing (exercise, sleep, proper nutrition, etc.)
  - Financial instability

- **National College Health Assessment conducted by the American College Health Association, Fall 2018**
  - 31.9% Stress
  - 25.9% Anxiety
  - 20.2% Sleep Difficulties
  - 16.9% Depression
  - 12.9% Cold / Flu / Sore Throat
  - 12.5% Work
